ATA-Kapitel (englisch ATA Chapter) sind eine Systematik für die einzelnen Systeme eines Flugzeuges. Dabei werden alle technischen Einrichtungen des Flugzeugs in entsprechende Gruppen und Untergruppen eingeteilt, z. B. gehören die Tanks zum Kapitel 28-10: Gruppe 28 Treibstoff-Systeme, Untergruppe 10 Lagerung.

CF-2016-19 R2 (B) Titre : Exploitation par temps froid “ Introduction d’un système anti-givrage de voilure basse temperature au sol

Bienvenue sur le site OSAC - Consignes de Navigabilité ...

Fly-by-wire (FBW) is a system that replaces the conventional manual flight controls of an aircraft with an electronic interface. The movements of flight controls are converted to electronic signals transmitted by wires (hence the fly-by-wire term), and flight control computers determine how to move the actuators at each control surface to ...

Safran Landing Systems contact details and business overview

Safran Landing Systems - France - Airframer

I flew the Boeing - 767, retired quite a while ago, but believe that the windshear recovery maneuver was max power, and increase climb angle to feather into the stick shaker (stall warning) until recovered.

How does the fly-by-wire in Boeing 777 differs from the ...

Agreed, while the production was a bit dramatic, the facts were there and the American Airlines pilot as well as the Australian pilot seemed very credible and their concerns extremely valid.

Something wrong with Boeing's safety culture? - Page 3 ...

This is in the 737NG training manual: Manual Stabilizer TrimIf manual stabilizer trim is necessary, ensure both stabilizer trim cutout switches are in CUTOUT prior to extending the manual trim wheel handles.
