Financial economics is the branch of economics characterized by a "concentration on monetary activities", in which "money of one type or another is likely to appear on both sides of a trade". Its concern is thus the interrelation of financial variables, such as prices, interest rates and shares, as opposed to those concerning the real economy.

Financial economics - Wikipedia

From August 22 to 25 around 800 experts from around the world will attend annual meeting of the European Finance Association. For the first time the event will take place in Poland and SGH Warsaw School of Economics is the co-organizer, along with Imperial College London.
