Engineering is the discipline and profession that applies scientific theories, mathematical methods, and empirical evidence to design, create, and analyze technological solutions cognizant of safety, human factors, physical laws, regulations, practicality, and cost.

List of engineering branches - Wikipedia

Intersections are a critical aspect of street design as the point where motorist, bicycle, and pedestrian movements converge. Successful intersection design addresses all mobility and safety goals as well as opportunities to enhance the public realm.

Intersection Design Elements | National Association of ...

Traffic lights, also known as traffic signals, traffic lamps, traffic semaphore, signal lights, stop lights, robots (in South Africa and most of Africa), and traffic control signals (in technical parlance), are signalling devices positioned at road intersections, pedestrian crossings, and other locations to control flows of traffic.

Traffic light - Wikipedia

This chapter provides information on techniques for sharing parking facilities among various users to increase efficiency. Description. Shared Parking means that parking spaces are shared by more than one user, which allows parking facilities to be used more efficiently.

Online TDM Encyclopedia - Shared Parking

This chapter discusses bicycle parking, storage and changing facilities. Description. Bicycle Parking, storage and shower/changing rooms (collectively called end of trip facilities) are important ways to provide convenience and security for cyclists at destinations.
