

### **Noise Music A History Paul**

In music, noise is variously described as unpitched, indeterminate, uncontrolled, loud, unmusical, or unwanted sound. Noise is an important component of the sound of the human voice and all musical instruments, particularly in unpitched percussion instruments and electric guitars (using distortion).

In many history books, even some that are highly rated, you will read that the guitar was invented by the classical-era Greeks. This is due to a simple mistake. The Greeks had an instrument which they called a Kithara. As this was a stringed instrument and that the name resembles closely that of the
